A wide-angle, high-angle photograph of the Dubai skyline at night. The Burj Khalifa is the central focus, illuminated with bright lights. Other skyscrapers and buildings are visible, some with red and blue lights. The foreground shows construction sites and lower buildings. The overall scene is a vibrant, illuminated cityscape.

# Welcome to Middle East Supplies

## Middle East Supplies FZC

**Middle East Supplies FZC** or **MES** is a wellknown company in the oil- and gas industry. We are a flexible company and our team consist of a mixture of young, dynamic and experienced people ready to present you a solution for your question. Our main office is located in Dubai from where we cover a wide range of the market.

**Middle East Supplies FZC** is specialised in the upstream market for drilling and completion equipment and the related services.

## About us

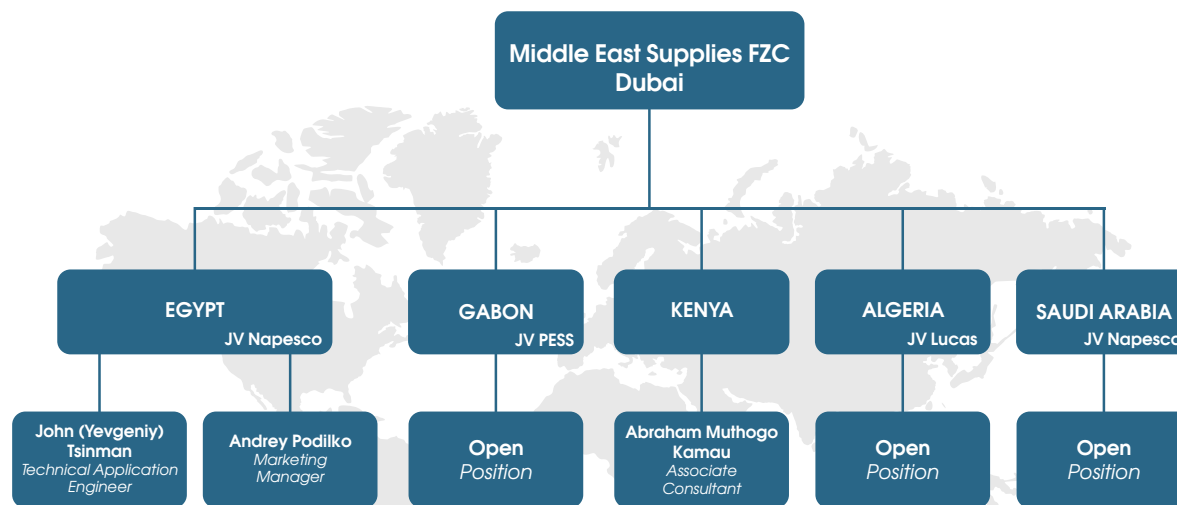

**Middle East Supplies FZC** has earned a commendable reputation of reliability and quality due to our adherence to uncompromising standards of quality.

We focus upon delivery of high quality, durable products along with superior client services, which offers our clients a competitive advantage and create value for their business. In order to achieve our goal of offering quality products, we concentrate on offering value added services to our customers and satisfying emerging market needs.

## Middle East - Africa Organization Structure

## Products

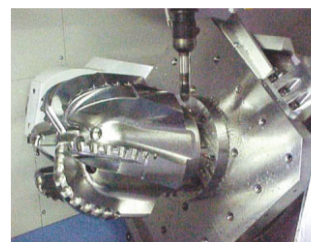

### Drill Bits

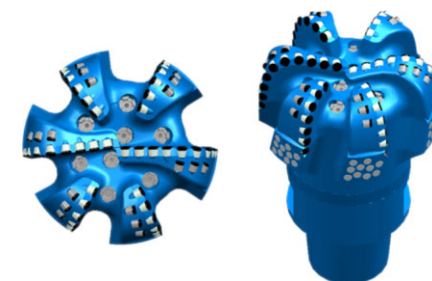

**Middle East Supplies FZC** provides its own designed Fixed Cutter Bits for the Oil and Gas and Mining Industry. These high tech PDC bits has the latest features and cutter technology.

### Steel Body

Steel body are machined from premium steel grades and pass through additional heat treatment process to improve wear and impact resistance

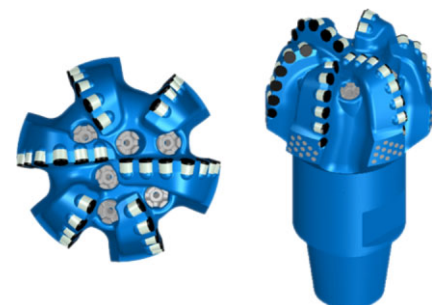

Additional hard facing is applied for long on-bottom hours.

### Matrix Body

Matrix drill bodies are manufactured from tungsten carbide powder using hot infiltration method. Every matrix body has steel blank to add impact resistance to the blades.

## Products

### Well Head Equipment

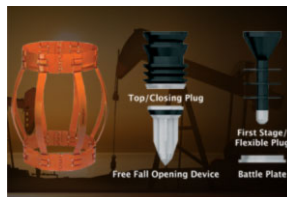

**Middle East Supplies FZC** provides first Class well head equipment all in accordance with API Spec. 6A.

### Casing / Tubing

**Middle East Supplies FZC** provides a complete range of casing/ tubing with and without Premium Threads.

Tubulars are supplied direct from API-certified mills or from stock at our partners worldwide.

### Casing Hardware

**Middle East Supplies FZC** provides API certified guide or float shoes, float or landing collars, centralizers, scratchers, cement baskets, stage-cementing collars, differential fill-up equipment and other specialized equipment to help achieve successful placement and cementation of the casing string.

## Products

### Liner Hanger Equipment

**Middle East Supplies FZC** provides a range of Liner Hanger Equipment, Tools, Rentals and Engineers.

### Completion Equipment

**Middle East Supplies FZC** provides the following range of completion equipment:

-  Retrievable packer
-  Permanent packer
-  Seal Bore Packer
-  Tubing Anchors
-  Wireline equipment
-  Coil Tubing Equipment
-  Service Tools

## Products

### Chemicals and Additives

**Middle East Supplies FZC** supplies high quality industrial minerals and additives for the Oil & Gas and Mining Industry.

- 📍 Delivery of bentonite, baryte, drilling fluids, dolomite, hematite and additives
- 📍 Delivery of palletized material, big bags and bulk
- 📍 Efficient logistics
- 📍 Application specific advice
- 📍 Technical support
- 📍 ISO 9001:2008

### NoWAX

**Middle East Supplies FZC** provides **NoWAX** which is an innovative Cost Efficient and Environmentally Safe solution to Paraffin precipitation in Oil wells, Flow lines,

Pipelines, Storage facilities and all Road, Rail and Sea going Tankers.

## Products

### Bitumen

**Middle East Supplies FZC** supplies a wide range of base bitumen including penetration and viscosity graded bitumen, polymer modified bitumen binders and full range of specialty asphalt pavement products (repair and re-instatement) and construction chemicals, all manufactured and supplied in compliance to International and Country specific Standard Specifications.

**Middle East Supplies FZC** is solution provider, handling all aspects of the supply from conventional penetration grade bitumen to a full range of performance graded asphalt binders including Polymer Modified Bitumen (PMB) manufactured to stringent international standards, such as AASHTO M 320, ASTM D 6373, AASHTO MP 332, and EN 14023.

## Drill Bits Services

**Middle East Supplies FZC** is divided into operational and project engineering services. The operational services are focused on Bit and BHA supervision on location. The engineering is an in-depth service on a project approach, combining optimization services, including field services and drilling engineering services. Our Pricing is flexible to allow the best solution for the customer, Rental, Lump Sum, Direct Purchase and Implementation of customer owned bits.

## Used Drill Bits Services

We offer used bits servicing to lengthen the service life of your drill bits, improve control over your drill bits stock lists and help accounting services of your company with writing off procedures.

We have a full service repair shop with employees who will do a full scope of used bits servicing starting from collecting the bits from the customer site to packing reusable bits and delivering them back.

## Procurement Outsourcing Services

The outsourcing of procurement and logistics services include planning and executing procurement plans related to drilling and production equipment and services for oil and gas, mining and geothermal companies, providing numerous benefits for customers including:

- driving down the cost
- improving performance
- making procurement process more efficient

Our technical expertise, global presence and many years of experience make us your first choice in regards to outsourcing your procurement and logistics.

## Integrated Project Management

**Middle East Supplies FZC** offers the service of Integrated Project Management for running construction and work over of wells with engineering and technical support to facilitate successful project outcomes.

This service ensures the quality of work, prevents accidents and complications, and guarantees compliance with HSE requirements, within the budget and timeline, specified by the Customer.

Our IPM activities include but not limited to the list below and customized depending on the customer's agreed specifications.

- Development and revision of a drilling and work over project
- Development of operation plans
- Preparation of tender documentation, tendering, evaluation of bids for the compliance with the customer's specifications
- Providing the technical input for contracting rig, equipment and services
- Selection and qualification of contractors
- Drafting and concluding contracts
- Developing drilling and work over programs
- Preparation of a detailed mobilization plans
- Supervision of well construction
- Equipment mobilization supervision
- Management of drilling or work over
- Control of quality of works, equipment and materials
- Engineering services and technical support
- Supervision of well testing
- Preparation and analysis of reports and other required documents

## Inventory Management

We are offering our customers the services of inventory management services to enable you to reduce costs and improve overall efficiency of your operations.

Our experience and technical expertise allow us helping customers standardizing their equipment to be purchased. Our extensive network of worldwide suppliers enable us to purchase good quality equipment from the companies that have not used them on their projects enable to avoid disposal of excess inventory.

Inventory Management Solutions include:

- Planning and forecasting demand of equipment and consumables
- Discussions with materials departments to identify capital equipment and critical parts for the operation
- Identifying long lead items which failure is detrimental to the operations due to extended downtime
- Replenishment - redistribution of products when there are inventory imbalances among the operations
- Maintaining relations with vendors - allow suppliers to know the upcoming demand and stay a step ahead in supply planning
- Purchase Order Flow Management - helps to route the items where necessary at the moment
- Proactive budgeting for write-offs related to surplus and obsolete stock
- Unconsumed items are identified, inspected and made visible in the inventory for future use, sell back to manufacturer or move to other projects

## Our Customers

### Our Customers Worldwide

#### Middle East:

- ORYX Petroleum, Kurdistan
- Ascom, Kurdistan
- Burren, Kurdistan
- AGC Shallow, Kurdistan
- Casco Petroleum Middle East, Kurdistan
- Sonangol, Iraq
- Nedwell, Egypt
- Apache, Egypt
- Napesco, Egypt

#### Africa:

- Perenco, Congo, Cameroon, Gabon
- Glencore, Chad
- PetroChad, Chad
- United Hydrocarbon Chad Ltd, Chad
- Glencore, Cameroon
- Oryx Petroleum, Senegal
- Synergy, Tunisia
- Primoil, Tunisia

#### Oceania:

- Heritage, Papua New Guinea

#### Europe:

- NOC, Georgia
- Dahrub, Austria
- DrillNafte, Poland
- Aegean Energy, Greece
- Green wells, Holland

#### Asia:

- PTTEP, Thailand

#### North America:

- Condor Petroleum, Canada

#### CIS countries:

- Total, Russia
- KazDuCo Services, Kazakhstan
- Akpan, Kazakhstan
- KB Petroleum, Kazakhstan
- Falcon Oil and Gas, Kazakhstan
- Samek International, Kazakhstan
- Boartlongyear Drilling Services, Kazakhstan
- Turgai Petroleum, Kazakhstan
- KDC Repair and Tool Shop, Kazakhstan
- DrillTech Services, Kazakhstan
- Munai Service, Kazakhstan
