NoWAX

Greener and Cleaner

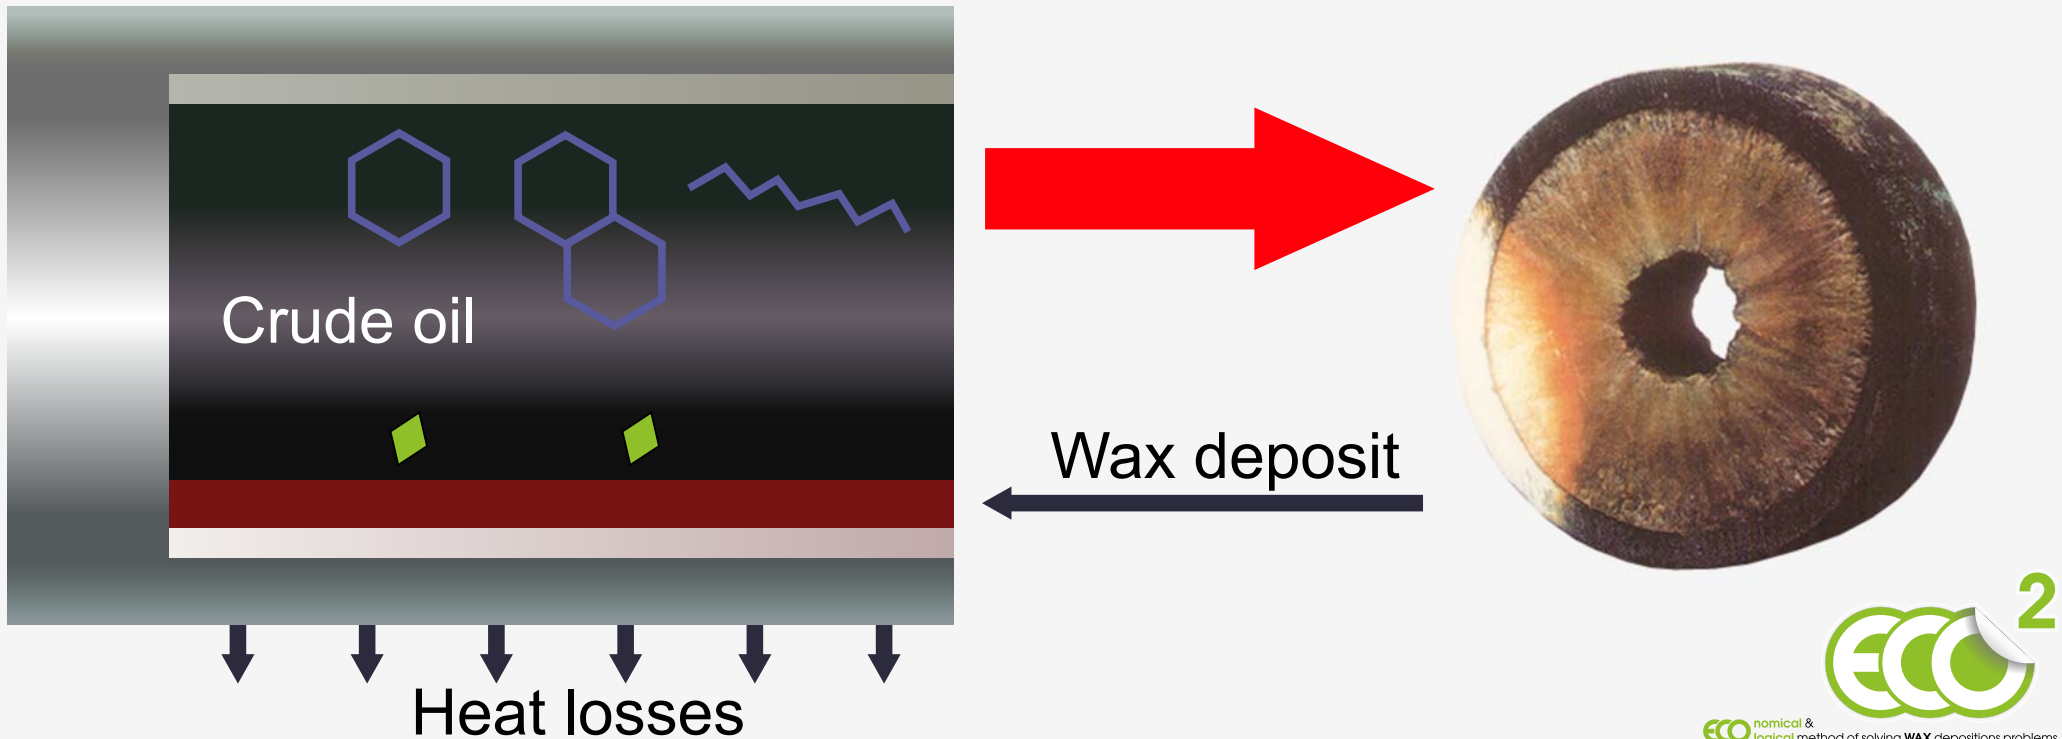

Way to wax-free Production

ECO nomical & logical method of solving WAX depositions problems

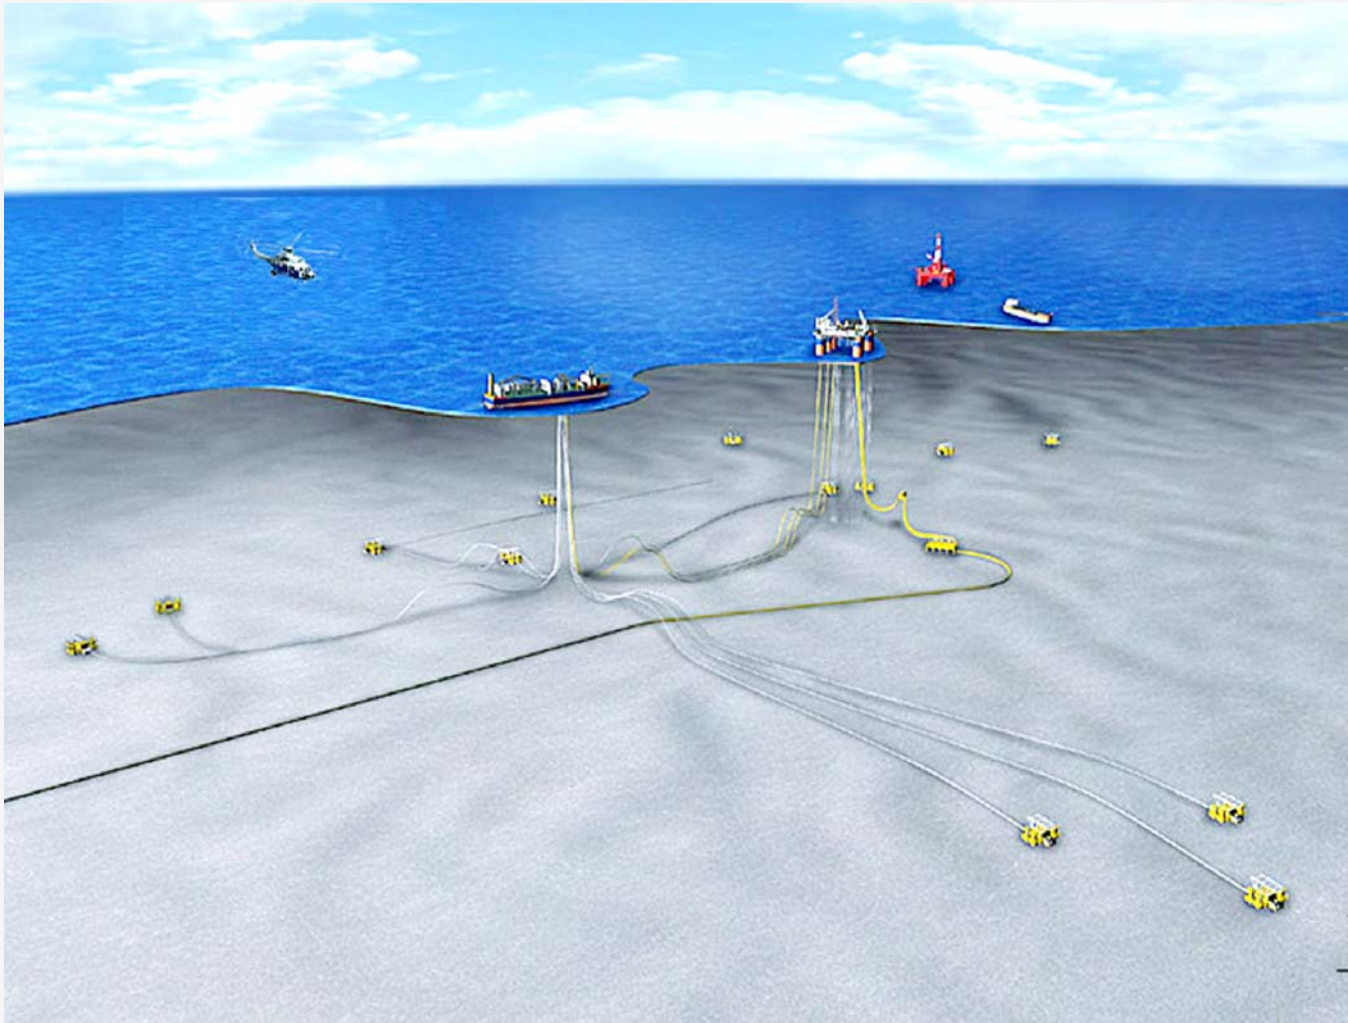

Wax Problem

- ✓ Wax, paraffins, deposition occurs due to precipitation of wax near the cold pipe wall.
- ✓ Wax is composed of wide range of HC, such as aromatic, naphthenes and paraffin, the precipitation of wax in various type of compound is need to be studied.

- ✓ Wax plugs tubing solid
- ✓ No way for oil to flow
- ✓ Workover has to be done
- ✓ Downtimes

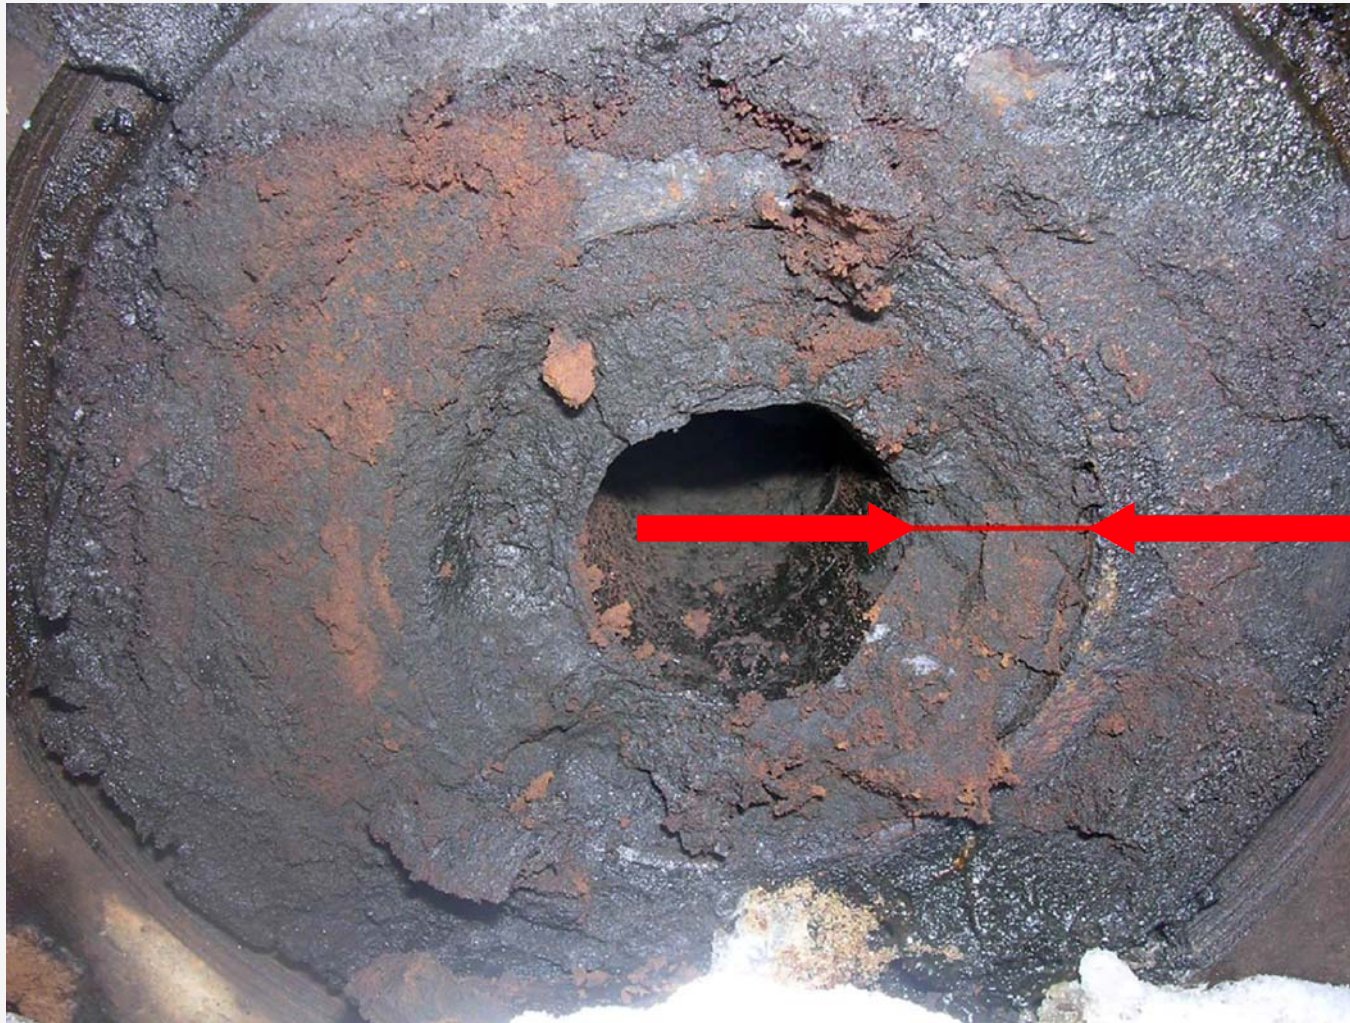

**Wax deposition causes
downtimes due to:**

- Broken equipment
- Plugged pipes
- Cleanout treatment
 - Workovers
- Pump hangup's

ECO² nomical &
logical method of solving WAX depositions problems

- ✓ Wax plugs flowlines solid
- ✓ No way for oil to flow
- ✓ Downtimes....

- ✓ Wax in gas condensate plugs process equipment
- ✓ Downtimes....

**During Coiled Tubing
Operations
wax may coat the pipe
and cause:**

- Slippages
- Total loss of traction
and
- Catastrophic
“Runaways”

Solution:

- ✓ **NoWAX** is the answer to all wax problems
- ✓ **NoWAX** Treated Oil works as solvent to replace hazardous Xylene
- ✓ **NoWAX** is biodegradable and is NOT:

CORROSIVE

FLAMMABLE

TOXIC

**ENVIRONMENTAL
HAZARD**

CARCINOGEN

NoWAX Safety Matrix

	Acidizing	Solvent washing	Hot oiling	NoWAX
Corrosive				SAFE
Flammable				SAFE
Oxidizing				SAFE
Toxic				SAFE
Environmental hazard				SAFE
Explosive				SAFE
Harmful/Irritant				SAFE
Carcinogen				SAFE

NoWAX is just GREENER

ECO nomical & logical method of solving WAX depositions problems

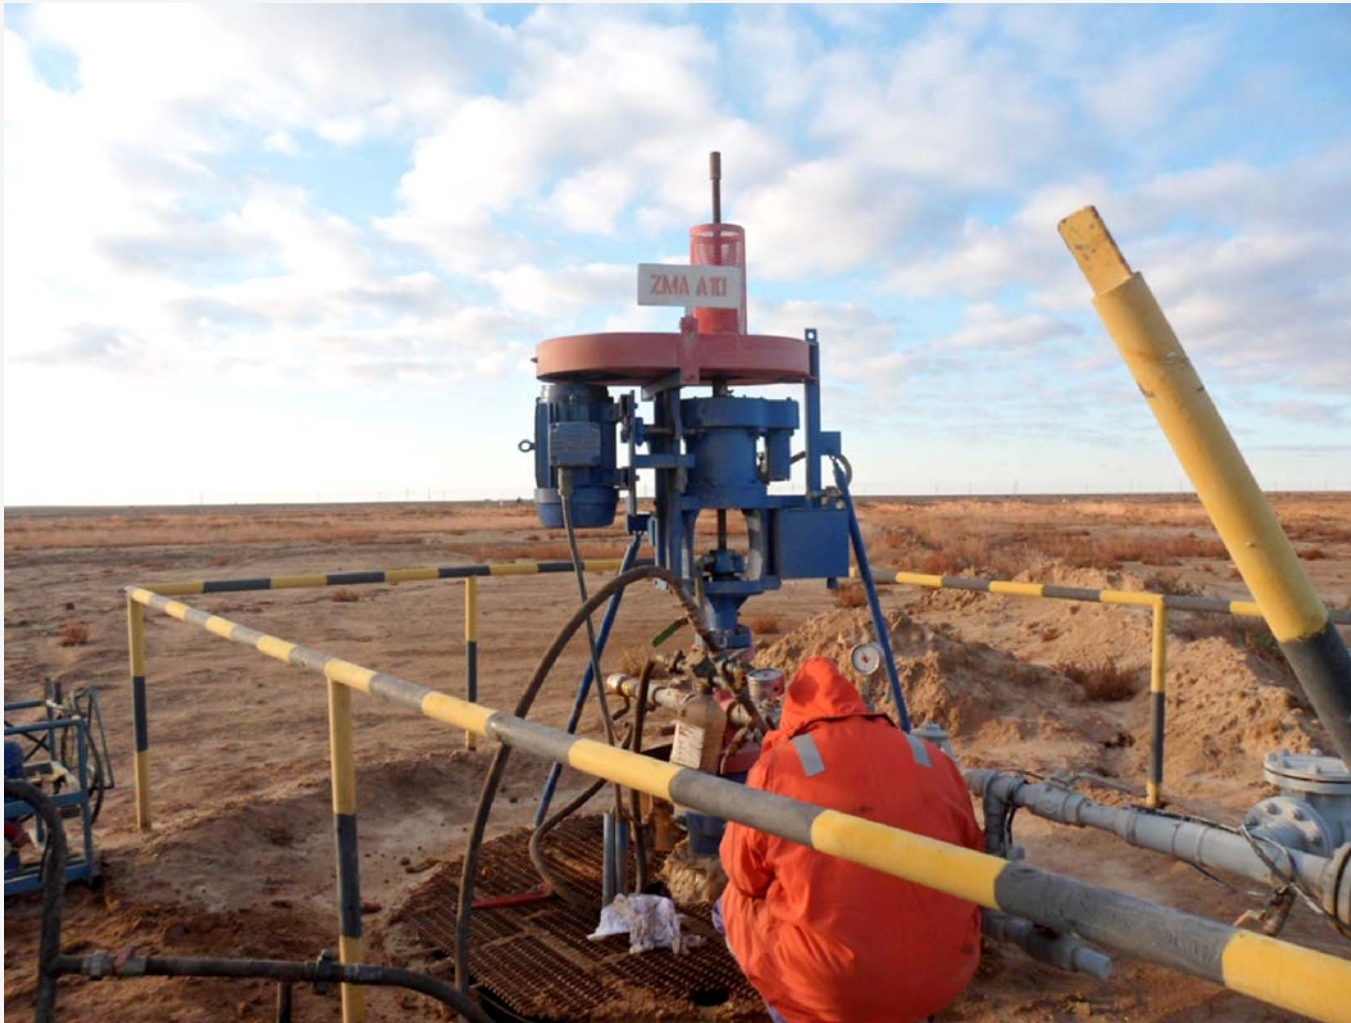

**NoWAX works
in crude oil**

ECO nomical &
logical method of solving WAX depositions problems

NoWAX works on
flowing/gaslift wells

**NoWAX works
on pumped wells**

NoWAX Benefits

- production gain
- wax-free production
- less broken rods
- less workover
- less pump hangups
- less production loss while hotoilings and waxcuttings and workover
- less pump torque load and amperage

NoWAX

Greener and Cleaner
Way to wax-free Production
